Josh speaks on topics related to equipping pro-life people to have better conversations with pro-choice people. He will customize his presentation to meet your organization's specific needs. Our goal is to facilitate the outcome you want to create with engaging presentations.

Josh has created a special speech specifically designed for use at Pregnancy Resource Center Fundraising Banquets. Ask us for a description of that talk and why it transitions nicely to a financial appeal.

KEYNOTES AND ENDORSEMENTS

JOSH BRAHM

Pro-Life Speaker

Equal Rights Institute trains pro-life advocates to think clearly, reason honestly, and argue persuasively.

Listed below are some of Josh Brahm's most requested speeches. He is also available to teach half-day or full-day seminars that will give your audience a more in-depth experience.

> The Most Persuasive Pro-Life Argument

In 2013, a group of advocates from multiple pro-life organizations started heavily experimenting with different ways of arguing for the personhood of the unborn. The results were astonishing and proved to be more effective at changing the minds of pro-choice people than any other argument advocates have used in the past. It's called the Equal Rights Argument. This argument masterfully takes premises that most pro-choice people already strongly agree with, and demonstrates that the only reasonable conclusion is that the unborn is a person with a right to live.

> 6 Practical Dialogue Tips: What We've Learned from Talking with 5,000 Pro-Choice People

In this lecture, Josh will share ERI's best tips for creating a conversational environment in which people are most likely to change their viewpoint. Some of these are tips ERI has developed and used since its inception, while others are more fresh, the product of continual engagement with pro-choice people. This is one of Josh's most fun and engaging speeches, filled with great stories of real conversations to illustrate these important points.

> Understanding and Responding to "My Body, My Choice"

The strongest pro-choice argument is one that grants the entire pro-life case that the unborn is a full human being (like an adult). But it goes on to claim that abortion should still be legal because women have a right to control their own bodies. Pro-life advocates shouldn't be so quick to dismiss these "bodily rights" arguments, but they also don't need to be afraid of them. Whether you're a seasoned veteran or new to sharing the pro-life message, Josh will give listeners a road map for making a powerful case against these arguments. The audience will leave ready to engage any pro-choice advocate who defends abortion with "bodily rights" arguments.

> 8 Faulty Pro-Life Arguments & Tactics

Want to be the most effective pro-life ambassador possible? This presentation will certainly help you do that! While surprising to some audiences, pro-lifers occasionally make arguments that are easily refutable. They also sometimes use tactics during abortion debates that are counter-productive. Josh carefully analyzes eight examples in this presentation.
